

Clean Soil Acceptance Letter

Re: Clean Soil from Various Locations (Job Sites)

This certification is in reference to disposing Clean Soil from various construction sites, managed/controlled by _____, who will be disposing soil at
(Contractor/Property Owner)

various San Jose Transport/San Jose Landfill sites. As the person or party responsible for designating the above referenced material as clean, I certify that no contaminants have been introduced into this material by agricultural, commercial and/or industrial means. These contaminants include, but are not limited to:

- PCBs
- Heavy Metals
- Petroleum Products
- Volatile Organic Compounds
- Semi-Volatile Organic Compounds
- Pesticides/Herbicides
- Asbestos, Asbestos-containing material and/or Serpentine Rock

I also certify that no deliberate or willful omissions of composition or properties of the waste exists; all known or suspected hazards have been disclosed to the appropriate landfill personnel; and the waste is not designated a Hazardous Waste by the US EPA or State of California.

Please contact _____, should you have any questions or concerns regarding the disposal of soil from our various job sites.

Sincerely,

(Signature)

(Print Name)

(Date)

Individually and as representative for _____
(Contractor/Property Owner)
